### The Morning Dawns.

EDITOR BULLETIN:

Should the bill granting the privilege of conducting an International Lottery become a law, we are assured that measures will be at once taken to put the undertaking into active operation. We are assured that the gentlemen interested are acting in good faith, and stand ready to make the first payment of \$125,000 at the stipulated time.

This being the case, it follows that the passage of the bill means an annual expenditure in this country of half a million dollars for twenty-five years.

The proposition is simple. The government finances are to be increased immediately by \$500,000. This money will be at once put into circulation. It will be paid out for labor, for material for roadmaking, for general improvements. It will give constant employment to every laborer in the country at the highest rates.

It will start the sluggish wheels of industry; it will quicken business and send an electric thrill through every avenue of trade.

It is needless to speculate on the advantages that will accrue to every one should the measure pass. We have heard much about Pearl Harbor, and the prospect that a million or so would be expended on improvements thereon.

With the subsidy in question we need not worry about Pearl Harbor. We can keep our territory. We will be independent.

We can accept this offer, and reap a golden harvest, or we can reject it. Should we reject the proposition, what can be offered that promises any solution to the dark problem that now confronts us?

With a country verging on bankruptcy, can we afford to neglect this matter?

Values are falling, capital is contracting, our currency is depreciating, and business is at a standstill; people and press are calling for relief; let any one scan the horizon of to-day, and see if any help is in sight. Can we pass this opportunity?

### Attorney-General Appointed.

At 10:15 Minister Parker rose in the Legislature and stated that it had pleased Her Majesty to appoint the Hon. Paul Neumann as Attorney-General. Considerable applause greeted the announcement and a spirit of satisfaction seemed to pervade the Assembly. Mr. Neumann was Attorney-General some years formerly, holding that office during the session of 1884 and for part of the session of 1886. At the recent election he re-entered public life as a Noble for the term of six years.

The program of the Sons of St. George celebration at Pearl City will appear to-morrow. The events will be very interesting.

## LOCAL AND GENERAL NEWS.

Friday next will be a public holiday.

The Steens to-night at the Opera House.

Striped holokus seem to be all the go now.

Diamond Head, 3 p. m.—Weather cloudy, wind high northeast.

The Fish Market has been overstocked with fish for the past week.

There were only four cases of drunkenness in the Police Court this morning.

One or two lonesome cows at Makiki are the occasion of considerable smart writing these dull days.

All letters marked per bark Forest Queen will be forwarded to-morrow by that vessel for San Francisco.

David Naone has been appointed a member of the Koolauloa Road Board in place of Rev. S. Kapu.

A hackman pleaded guilty to violating carriage regulations in the Police Court this morning, and was fined \$25.

Liborio, a band boy, seems to be a musical genius. He has composed a saxophone solo which will be played at the concert at Emma Square this evening.

The I. I. S. N. Co.'s schooner Liholihi is chartered for a trip to Laysan Island, and goes on the Marine Railway to prepare for the voyage. She will sail on Wednesday.

Captain Wiltse and officers of the U. S. cruiser Boston were introduced to Her Majesty the Queen by His Excellency J. L. Stevens, United States Minister, this morning.

The Myrtle boys rowed their barge to Pearl harbor yesterday for the races on Friday, the Queen's birthday. They had an awning to protect their heads from the sun.

Mr. James Lyle has refitted the yacht Edith L. for the second class race on the Queen's birthday. The mast is shifted back to make room for a bowsprit and jib added. Mr. Alex. Lyle gave the yacht a trial trip yesterday, sailing her to Pearl harbor. She sailed faster and steadier than before the changes.

The old buildings adjoining the BULLETIN office on Merchant street are being removed to make room for a mammoth warehouse to be built by W. G. Irwin & Co. It will be a high single story brick building extending clear across the block from Merchant street to Queen street, having a 60-foot front on Queen.

A young native came down town this morning with a ten-cent piece and returned home on a tramcar with fresh fish, meat and other edibles, creating quite a happy little household at Waikiki. It might seem strange to many, but the fact is that he had been to a che fa joint on Munnakea street and won \$1.50 on a five-cent investment.

On Saturday afternoon, at 4 o'clock, Mr. George C. Allen and Miss Lydia R. Crabbe were married at the residence of Mr. Clarence L. Crabbe, Port Surveyor. The ceremony was performed by the Rev. Alex. Mackintosh, only immediate friends and relatives being present. The bride was given away by her father, Mr. Horace Crabbe.

Everybody should attend the benefit at the Opera House to-night, which will be given to Mrs. Martha E. Steen, the world-famous mind reader. The program will be a very select one and the best that ever was given by the Steen-Smith refined entertainers. The Opera House should be crowded to-night, as it is very seldom we get a refined entertainment like that given by this famous company. They have surely fulfilled every promise made to the public and deserve the public patronage.

Mr. William Auld celebrated his fiftieth birthday to-day. Shortly after one o'clock a large number of people sat down to a bounteous luncheon on the Lusane Asylum grounds, and a good time generally was had by those present. The band stationed on the lawn played throughout the afternoon. The ancient hula dances were enacted by young damsels with apparent gracefulness. Mr. Auld received several handsome presents during the day from his many friends, among which was a pair of handsome diamond-studded cuff buttons. Her Majesty the Queen, Captain Wiltse of the U. S. S. Boston, His Excellency C. N. Spencer, Gov. Rice of Kauai, members of the Legislature and a host of others were present to congratulate Mr. Auld on having attained his jubilee.

### Public Concert.

The Royal Hawaiian Military Band, Prof. H. Berger, leader, will give a concert this evening at Emma Square commencing at 7:30 o'clock. Following is the program:

Marsch-Express. Schrammel.  
Overture-La Dame Blanche. Hodelien.  
Saxophon Solo—Queen Liliuokalani.  
Songs and Dances of Northern Europe. Kuhn.  
Ala Hiki Mai. Alua Han. Ipe Lauae.  
PART II.  
Medley—Christy Minstrels. Reviere.  
Fantasia—On the Millstream. Ellenberg.  
Waltz—Golden Myrtle. Fairbank.  
Gigue—Iris. Faust.  
Hawaii Poni.

## THE LEGISLATURE.

### SEVENTY-SEVENTH DAY.

MONDAY, Aug. 29, 1892.

#### Morning Session.

Assembly came to order for prayers at 10 o'clock, President Walker in the chair. Minutes of previous meeting were read and, as usual, approved.

The following petitions were then presented and referred:

By Rep. Kanealii, from residents of Wailuku, Maui, that a new Constitution be granted. To Constitution Committee. 2. From residents of the Third District of Honolulu, that an electric light be placed at the junction of Queen and South streets, Honolulu. To Committee on Public Lands.

By Rep. Josepa, from residents of Hana, Maui, relating to school matters. To Committee on Education.

By Rep. A. S. Wilcox, from residents of Kalaheo, Kauai, that lepers do not be allowed to reside in that district. The petitioners give as special reasons for the objection: 1. That lepers there, when in dispute with kamaainas, always threaten to use firearms. 2. That restrictions like those now extant on Molokai would be placed at Kalaheo and would therefore affect the product and industry of the kamaainas now there. 3. That the people who pray to be allowed to remain there are not residents of the place, but belong to other districts of the islands. Referred to Sanitary Committee.

By Rep. Kamaoaha, containing a number of prayers relating to various subjects. To Committee on Miscellaneous petitions.

By Rep. Akina, from Hanapepe, Waimea, that a postoffice be established at that place. To Minister of Finance.

Noble Marsden, from the Labor Committee, reported on Bill 7, introduced by Rep. Kanealii, and to the effect that most of the objects sought to be obtained by the Bill are fully covered by the contracts and the laborer is fully protected by Sec. 1423 of the Civil Code. As to the provision requiring the employer to release the laborer from work at 12 o'clock noon on every Saturday, the Committee are of the opinion that this would conflict with all of the existing contracts for labor. The Committee say that they are confident that the conditions of contract laborers in this kingdom compare most favorably with that of any country that employs contract labor, and they call the attention of this House to the report of the Inspector-in-Chief of Japanese immigrants on pages 40 and 41 in the report of the President of the Bureau of Immigration. For the reasons above stated, the Committee recommend the Bill be tabled. Report tabled for Bill.

Rep. Wilder from the Committee on Commerce reported on Bill 142, to prevent the further introduction of mungoose in or upon the Island of Oahu, and also to adopt some means to try to exterminate those already on the said island. The committee say that while it is a fact that the mungoose accomplish the work for which they were introduced, viz., destroying rats, yet it is also a fact that they destroy everything in the shape of poultry, and no doubt will become a curse to the islands. The committee recommend an amendment which makes it a misdemeanor for the mungoose to be kept or bred upon the Islands of Oahu or Kauai. Tabled for consideration with bill.

At 10:15 o'clock Minister Parker rose and made announcement that the Queen had been pleased to appoint Hon. Paul Neumann as Attorney-General of the Kingdom. (Applause.)

Noble Neumann, thus become Attorney-General (a not unexpected result), rose, bowed and asked permission to retain his old desk for the present, as he was very comfortably situated and had all his papers there. (Laughter.)

President Walker granted the request.

Rep. White, under suspension of the rules, presented a notice that he would introduce a bill entitled "An Act granting a franchise to establish and maintain a lottery."

Rep. Koahou offered a resolution that the sum of \$1,200 be appropriated for the purpose of erecting a courthouse and lockup at Central Hilo. To Committee on Public Lands.

Noble Thurston offered a resolution that "The Committee on Foreign Affairs is hereby instructed to report within one week from the date hereof whether or not it is advisable to make an appropriation for an exhibit at the World's Columbian Exhibition, and, if so, how much, and also what action and recommendations, if any, have been made by the Honorary Commission recently appointed by the Government." Adopted.

Rep. Smith offered a resolution that, "whereas a disease or blight has, for several years, so affected kalo crops on the Island of Kauai and elsewhere in this Kingdom that serious loss and suffering has resulted to the people and every means have so far failed to stay the evil, be it resolved that the Committee on Commerce, Agriculture and Manufactures be instructed to make inquiries in regard to the matter and report such recommendations as they shall deem best."

After amendment by Noble Baldwin so as to include the banana borer and the new cushiony scale blight on trees, and that it be given to the consideration of a Select Committee, the resolution passed.

Noble Marsden offered a resolution that Section 6 of a proposed amendment to the Constitution relative to the identification and classification of agricultural laborers be made the special order of the day for Thursday, Sept. 1.

Considerable argument was had thereon, only being stopped by the Minister of Finance moving the previous question.

Division was had and finally the Ayes and Noes were called, the resolution being passed by a vote of 31 to 16 as follows:

Ayes—Ministers Widemann, C. N. Spencer, and Neumann; Nobles Berger, Eua, Macfarlane, Peterson, Cummins, Williams, Kanehane, J. M. Horner, Hind, Marsden, Young, Baldwin, W. Y. Horner, Cornwell, Walbridge, Anderson, Thurston, G. N. Wilcox, and Dreier; Reps. Wilder, Aki, A. Horner, Kamaoaha, Kamahe, Josepa, Akina, Smith and A. S. Wilcox—31.

Noes—Nobles D. W. Pua and Hoopili; Reps. Bipikane, Ashford, S. K. Pua, Kaula, R. W. Wilcox, Nawahi, Koahou, Kamaoaha, Waipulani, Kapahu, Nahinu, White, Kanealii and Edmunds—16.

Absent—Minister Parker, Noble Kanoa, Rep. Bush.

Immediately thereafter the Assembly at 12 o'clock took recess until 1:30 p. m.

### \$12,500,000 for Hawaii.

EDITOR BULLETIN:—There was introduced to-day into the House, a bill which, if it becomes a law, will doubtless be the means of annually flooding the country—not with suspicious paper money—but with \$500,000 in U. S. gold coin.

Briefly, the bill simply grants certain citizens of Honolulu and Chicago, the permission to conduct a lottery for the term of twenty-five years; in return the Government is to receive yearly half a million dollars in gold coin, payable in quarterly installments of \$125,000 each. This subsidy is to be paid into the National Treasury, and is to be expended under the direction of the Legislature.

The Government is required to do nothing; the Government is under no expense in regard to the matter. The half million dollars in gold is a net sum; it is all to be expended in this country, with the exception of the item for the cable. Four hundred thousand dollars will be dumped into circulation every year. It will be mostly paid out for labor and material. Half a million for twenty-five years means \$12,500,000. COLD COIN.

### Land Sales.

Mr. Morgan to-day sold two pieces of rice and taro land at Waikiki-waena, for Mr. Henry Smith, commissioner, under order of the Supreme Court in equity in the suit of Kukuli and S. Kauai her husband against Alexander George and others. The property belonged to the late Nicholas George.

Apana 1 contains 1 215-1000 acres, and was held for an upset price of \$500, at which it was started by Hon. Geo. C. Beckley. It was run up by two or three bidders until Alex. George carried it off at \$1300. Mr. Beckley only wanted it as a base of water supply to his land at a lower level, but he did not let go short of \$1275.

Apana 2 contains 71-100 acres and was bought by John F. Bowler for \$410. The sales were regarded as very satisfactory.
